

POWER BEE RC PARTS CHECKLIST

Mini Kraton chassis upgrade kit builder checklist

KIT PARTS

DONE	PART	NOTES
☐	CHASSIS	Main chassis plate.
☐	MUD GUARD	Single mud guard.
☐	SERVO MOUNT	Servo mounting part for the build.
☐	MOTOR/CENTER DIFF MOUNT	Motor and center differential mount.
☐	FRONT AND REAR BULKHEADS	Both bulkhead assemblies.
☐	TOP SUPPORT BRACE	Carbon fiber top support / brace.
☐	BATTERY TRAY	Battery tray and related mount points.

HARDWARE AND DONOR PARTS

DONE	PART	NOTES
☐	ALL REQUIRED HARDWARE	Verify screws, inserts, spacers, nuts, and pins against the hardware list before starting.
☐	DONOR MINI KRATON	Needed for the remaining factory parts used during the build.

BEFORE YOU START

- Watch the assembly video on YouTube.
- Lay out all kit parts and hardware before disassembling the donor truck.
- Keep donor Mini Kraton factory parts grouped by front, center, rear, electronics, and hardware as you remove them.
- Use the hardware list PDF for screw, insert, spacer, nut, and pin details.

Generated for Power Bee RC builders.
